

# Training Notes

## Chart Customization

Click on chart then click on "customize".

## Rule Views

Can enable/disable rule in rule view

## Rule Tuning

Rules can have filters? or sub rules? Used to apply a different rule to submeters vs site meters.

## His Import

Can use historian import to bring in data from .csv or .zinc files.

## Schedule App

I don't have access to this. Looks like its done in the classic UI.

## View Building

Watch view builder intro for how to make 2 views controlled by 1 date range selector.

apps are a folder for views

you might need a special query to get data from clusters?
